PROFESSIONAL SUMMARY

Because eloquent speakers can be deceptive, I let my work speak for me (driven only by what truly fascinates me...): Research Cryptography, Full-Stack Developer, Ethical Hacker, Ecosystem builder and a genuinely funny person.

PROFESSIONAL EXPERIENCE

Intern – Public Key Infrastructure (PKI) Apr. 2025 – Present
ANTIC (National Agency for ICT – Cameroon)

- Contributing to the update of **Authentic**, a public key infrastructure-based solution for digital document certification and authenticity verification
- Collaborating with a team of experts in cryptography within the PKI division to ensure compliance with national cybersecurity standards
- Conducting applied research on digital signature mechanisms and PKI integration in public services

Freelance Consultant 2023
CyComAi

- Designed and developed a backend system for verifying online information, combining AI-based text analysis and community-driven fact-checking features
- Conducted comprehensive security assessments for the platform, identifying and resolving critical vulnerabilities to ensure system integrity
- Provided technical guidance on secure API design and implemented role-based access control for collaborative user interactions

AWS Cloud Monitoring 2022
Sygalin SAS, 3-month internship

- Implemented cloud monitoring solutions using AWS CloudWatch, improving system visibility
- Developed automated alert systems for security incidents and performance anomalies
- Collaborated with engineering team to optimize cloud infrastructure security

Hackathon and Competition Achievements

2023-2025

Various Organizations

- Winner of Cybersecurity QUICKATHON, track real vulnerabilities in enterprise systems
- Finalist in CITS National Hackathon, recognized for technical excellence
- Participant and Finalist in Hackathon Orange 2023
- Promoter and Organizer of [SprintHack](#) CTF in Cybersecurity
- Selected participant in QPrep16 Quantum Computing and Programming Workshop

TECHNICAL PROJECTS

Eyesandears

2024

Network Security Anti-Phishing Platform

- Developed a comprehensive platform to detect and prevent social engineering attacks and phishing attempts
- Implemented real-time network traffic analysis and suspicious activity detection algorithms
- Created educational components to raise awareness about common phishing techniques
- **Technologies:** React, Laravel, MySQL, Security Analysis Tools
- **Link:** <http://eyeandears.com/>

Authentic SAAS

2024

Information Verification Platform

- Designed and developed a platform to combat mass disinformation using cryptographic methods and artificial intelligence
- Implemented secure verification algorithms to authenticate information sources and content validity
- Created user-friendly interface for fact-checking and information validation
- **Technologies:** Nuxt.js, Laravel, TailwindCSS, AI/ML libraries
- **Link:** <https://authentic-237.vercel.app/>

Attendance Tracking System

2023

Enterprise Solution

- Developed secure attendance tracking system for DKP-B-Learning SARL
- Created real-time monitoring dashboard with analytics capabilities
- Implemented data encryption and secure API endpoints
- **Technologies:** Next.js, Laravel, PostgreSQL

APILEC Association Website

2023

Non-Profit Organization Platform

- Designed and developed official website for APILEC association
- Implemented responsive design and content management system
- **Technologies:** Nuxt.js, Vuex, TailwindCSS
- **Link:** <https://apilec.vercel.app/>

EDUCATION

Master in Applied Cryptology and Cybersecurity <i>National Higher Polytechnic Institute Bamenda</i> Center for Cybersecurity and Mathematical Cryptology Research Focus: "Privacy-preserving Key Management Scheme for Clustered IoT Networks"	2023-present
Bachelor Degree in Computer Science <i>University of Ngaoundere</i> • Focus on network security, mathematics and software engineering • President of University INFOTECH Club (2022-2023)	2020-2023
Baccalaureate (Option Mathematics and Physics) <i>GBHS Bojongo at Douala</i>	2019-2020

CERTIFICATIONS

Cryptography Certificate <i>Coursera, University of Maryland</i> https://coursera.org/share/3fe115c38acdd3d594ec07c90f52f4a9	2024
Ethical Hacking Essentials <i>Eccouncil by Sanjay Basivi</i> https://coursera.org/share/3fe115c38acdd3d594ec07c90f52f4a9	2024
HTML and CSS Certificate <i>Sololearn by Dr. Yeva Hyusyan</i> https://www.sololearn.com/certificates/CT-YQBTBLHA https://www.sololearn.com/certificates/CT-OM4ITUTR	2022
PHP and SQL Certificate <i>Sololearn by Dr. Yeva Hyusyan</i> https://www.sololearn.com/certificates/CT-XMYFJBE4 https://www.sololearn.com/certificates/CT-TKG7SRWS	2022
C++ Object-Oriented Programming <i>Coursera, École Polytechnique Fédérale de Lausanne</i> https://www.coursera.org/account/accomplishments/verify/W9ANPHSGUSPH	2021

TECHNICAL SKILLS

<i>Languages</i>	French (Native), English (Advanced)
<i>Security</i>	Cryptography, Penetration Testing, Security Assessment.
<i>Programming</i>	C/C++, Java, PHP, Python, JavaScript, Bash
<i>Frameworks</i>	React, Next.js, Nuxt.js, Laravel, Django, Tailwind CSS
<i>Tools</i>	Git, Docker, AWS, Linux (Kali, Ubuntu, Debian)
<i>Other</i>	Technical Documentation, Problem Solving, System Architecture

LEADERSHIP EXPERIENCE

Public Speaker

Since 2022

LinkedIn, *Woman Tech Makes Ndere WTM*, *Google Developer Group (GDG)*

Delivered technical presentations on cybersecurity and software development topics

Leadership Roles

2018-2023

University Clubs

- Promoter and Organizer of [SprintHack](https://sprinthack.vercel.app/) CTF in Cybersecurity (2023)
<https://sprinthack.vercel.app/>
- President of Ngaoundere University INFOTECH Club (2022-2023)
- Secretary of Ngaoundere University INFOTECH Club (2021-2022)
- Vice-President of GBHS Bojongo Computer Science Club (2018-2020)
